

Greater San Diego Science and Engineering Fair
Free Science Fair Workshop
2017-2018
First in Series

For Students, Teachers, and Parents

Presented by the Student Advisory Board (SAB)

“Achieving Science Fair Success!”

Workshop #1

“Designing and Developing a Successful Project”

Want to do a science project and are wondering how to get started? ...Need ideas or need help designing your experiment?

Join us as we discuss project ideas, the scientific method, getting support from a mentor, and more! This workshop will help you get started on designing and developing a successful science/engineering project! Come and “pick” the brains of award-winning SAB members who have experienced success at Science Fairs! Let us launch YOU on the path of science/engineering success!

SIGN UP FOR WORKSHOP: [WORKSHOP #1](#) or go to gsdsef.org
