

Greater San Diego Science and Engineering Fair

Free Science Fair Workshop

2017-2018

Third in Series

For Students, Teachers, and Parents

Presented by the Student Advisory Board (SAB)

“Achieving Science Fair Success”

Workshop #3 – SOUTH COUNTY AREA

“Showcasing Your Project – Preparing for a Successful Presentation”

Congratulations! You've been recommended to enter the GSDSEF! You've analyzed and interpreted your data, and your project is ready. But now you're wondering, “What happens during judging? What do I say? How do I make a good impression?”

We'll help you prepare for the judging process, offer advice on presenting and interacting effectively, and take you through a judging simulation. You'll be able to meet and talk to several judges and find out what they are looking for in a successful science/engineering fair project!

SIGN UP for [Workshop #3 \(South County\)](#) or go to www.gsdsef.org

Wednesday, March 7, 2018

4:30 pm – 6:00 pm

Sweetwater High School Theater

[2900 Highland Ave, National City, CA 91950](#)

If you have questions, please contact the SAB at gsdsefsab@gmail.com.
